SEWING-MACHINES. THE NEW

SEWING-MACHINE.

WHAT IT IS.

IT is the most powerful and durable, the lightestrunning, and most silent Sewing-Machine marke.
POWER.—The application of force directly over
the needle insures ample power and enables it to go
through the heaviest work with ease.

DURABILITY.—All the working parts are thoroughly hardened, and so adjusted that lost motion
can be readily taken up. specially recommended by the medical faculty on account of its light-running qualities.

"Why! how easy it runs!" is the invariable expression of those who operate it for the first time.

It is made and finished one hundred per cent, better than any other Sewing-Machine in the market. Its working parts are finished equal to the works of a fine watch. Mechanics and those who are familiar with machinery, are invited to call and examine it.

The ladies are invited to call and see the Domestic Inderbraider Sewing. Machine.
To braid with the Domestic Underbraider is as simple as to do piain stitching.
